INSTITUTE ELECTIVES FOR M.TECH./ M.PHIL. PROGRAMME

With the introduction of 2-year M.Tech. Programme in 2002, the Senate approved the proposal of Ballal Committee Report, which introduced a course to be taken under Institute Elective/ Course outside department.

The recommendations of the Committee is as follows:

Institute Elective:

Every student is required to take an Institute Elective as part of his/her course work. Institute Elective option will be available in both semesters and different sets of courses will run in both the semesters. Students cannot take those courses in the list of Institute Electives, which are closely allied to their disciplines.

Courses outside the Department:

Every student is required to take a minimum of 6 course credits outside his/her discipline. The Programme Committees (PCs) can set a higher minimum (PCs option). If the minimum is set as 6 credits, for a programme, then it will be the Institute elective. PCs should also decide about the minimum number of credits a student should take from his/her own major discipline.

The list of approved courses under Institute Elective is enclosed herewith for the **Autumn Semester 2017-2018**.

This is for your information and necessary action.
